RABBIT CAR - FROM DETUMS  
(FOR REACTION)

ALL I NEED

I don't need a diamond ring.  
Don't need no Cadillac car.  
Don't need to go to Nashville.  
Don't need to be a star.

All I need to be someone.  
Is someone that I see.  
When I look at you.  
When ~~Y~~ your eyes look at me.

All I need  
Is you to come.  
Come to me and be.

Beside me for a moment.  
Then ~~F~~ for eternity.

I don't need to do it twice.  
Just do it once with you.  
All I need is to have you say.  
You'll be mine. ~~B~~ Be true.

Used to play with guns and toys.  
Used to throw them knives.  
Now I ~~lie~~ by pen and chords.  
Little funk and jive.

I see you. ~~K~~ know what it means.  
Just to be alive.

I sleep and see that ~~h~~ again.  
Dark, ~~as~~ darkest  
Dark, dark night.

Close my eyes.  
Try to forget.  
Still see that sad sad sight.

No matter how I try or sigh.  
It never makes it right.

I hear the call.  
The raven speaks.  
Tears fall down like rain.

The old one comes.  
Smiles at me.  
Coming down the lane.

Came to take my dad and ma.  
Came to bring the pain.

Hear that mournful whistle ~~car~~ call.  
See that fateful train.

~~SPACE~~ But, I breath your rare bouquet.  
~~SMAY~~ Drink your nectar.  
Feel your heat.

What more can this pilgrim say.  
World is at my feet.

I don't need no stocks and bonds.  
~~H~~ouses, boats, or planes.  
Just tell me we'll get it on.  
Just light up my flame.

Some folks count their money.  
Add it up like rice.  
May sound kind of funny. Honey.  
But ~~W~~ with you I'll roll the dice.

Wake up in the morning.  
Sunlight in your hair.  
Bright new day a ~~burning~~ ~~burning~~ burning.  
Just to know ~~your~~ there.

Still like to smoke the rope a bit.  
Drink that home made wine.

But bodies meant like ours to fit.  
Never felt so fine.

Come and ride my wagon girl.  
Come and sit my horse.

Dance a bit, give me a twirl.  
Oh please...hear my voice.

Folks like you and me you see.  
Were meant to be in love.

Taste the moon, and wind so free.  
Kiss the stars above.

Just say yes. ~~Y~~ yes it is.

Just say so ~~it is~~. IS SO.

In fact my sweet, all I entreat.

Make it sound as though ~~x~~.

You might shine some light my way.

Grant a little hope.

Just don't say, you won't today.

Say may be,

Say possibly.

Just don't say

You're going away.

Oh God.

Don't say no.
