SB-PW'2000

Free as a breath
almost like velvet
smile

explore
celebrate
you look translucent
like always

trust me for yesterday is a blaze
remember not the broken soft words
they marbled but yet less pierced you

you linger in my eternity
laugh of life

perfume of women
delicious liquid flower
warm and naked

but the awards from sacrificing have ^{devoured} a

never worry
men web their crap only perhaps too fool ^{himself} a
sister we rot once, bleed, and heal after all
and streams breeze this must be

this must kiss of an angel to the center of my open lips.
